GOVERNMENT TECHNOLOGY is an award-winning magazine covering information technology's role in state and local governments. Through in-depth coverage of IT case studies, emerging technologies and the implications of digital technology on the policies and management of public sector organizations, Government Technology chronicles the latest trends and real-world solutions for today's government professionals.

FIELD SERVED
GOVERNMENT TECHNOLOGY serves branches of the state, county, municipal, special district and federal government as well as government associations, higher education, K-12 education, private sector and others allied to the field.

DEFINITION OF RECIPIENT QUALIFICATION
Qualified recipients are state, county, municipal, special district, federal government, other government and non-government personnel involved in administration, finance, information technology, public works, health and human services, human resources, environment/energy, economic development, agriculture, courts/justice, law enforcement, fire/emergency services, education, and other functions as described in Paragraph 3a herein. Also qualified are other titled and non-titled personnel and company copies.

Note: In these unprecedented times caused by the coronavirus (COVID-19) pandemic, resulting in workplace closures, sporadic workplace visits and work-from-home solutions, consent and renewal campaigns are impacted. Therefore, BPA Worldwide has granted an exception to reporting Age of Source for all 2020 reports. Although age is not reported, www.bpaww.com will be included in the annual audit made by BPA Worldwide.
